President's Microphone...Scott W4IYS

Field Day (FD) is fast approaching. Each WCARS member is encouraged to participate on June 23rd and 24th. This exercise is the perfect opportunity for each "ham" to test their preparations for emergency deployment, hone his/her skill in establishing reliable communications in less than ideal conditions, and enjoy working with others while engaging in shared interests. FD can be an excellent "lead in" to the WCARS Hamfest, to be held this year on July 28th.

May minutes...Karen - KG4OUP

Meeting was called to order at 7:33 p.m. Introductions were given, 41+ in attendance. Karl - K4PCY gave the treasurers report. Norman - N4NH gave a report on Ham classes: 14 began, 18 testers, 17 passed. Congratulations to all the new "Hams." Tommy - K4BNP asked for nominations for the KB4C award. Bill - N4OOC gave a report on the repeater. Also, he announced 2 special event stations coming in 2008. August 18th and 19th are the prospective dates. Dan - N1ND announced the state legislature is considering a PRB-1 equivalent law. Please help support this bill. Dean - K2JB gave an update on the upcoming Hamfest. He will have phone list available for volunteers to begin calling soon. Tickets available next month. Chet - KE4VXC got everyone excited about Field Day coming up on June 23rd and 24th. A

VE session will be held at the site.

Dan - N1ND gave the program "Welcome to Your ARRL". A slide show of the wonderful people at your ARRL in Newington, Conn. 50/50 drawing was won by: Bob Williams - KG4KHH.

Door prize was won by Ken Smith - KE4VMB, who declined. Ronald Fink - KF4HAT won on second drawing.

Meeting was adjourned at 9:20 p.m.

Amateur Licenses Issued

New

Tech. KI4VLT - Udo Wilms, Weaverville
Tech. KI4VLW - Randall Harris, Asheville
Gen. KI4VLU - Robert Brown, Hendersonville
Gen. KI4VLV - Guy Whitaker, Murphy
Gen. KI4VLX - Arthur Ambler Jr., Asheville

Upgrade

Gen. KD4OJE - Graham Barstow Sr., Leicester
Gen. KI4NXU - Grady Worley, Mars Hill
Gen. KI4VGC - Mitchell Ensley, Hendersonville
Gen. KI4UZV - Fred Brewer, Arden
Gen. KG4KHD - Alan McCracken, Asheville
Extra AI4XQ- Wendell Cisco Sr., Marshall
Extra KI4VIQ - Earl Payne, Asheville
Congratulations to each of these new/upgrade licensees. N4NH - Norm.

Silent Keys:

With deep regret WCARS records the loss of fellow amateurs Carl V. Luther-KC4KPW, Leicester, April 20, 2007, and Fred K. Shope - N4QNK, East Asheville, May 29, 2007.

WCARS Hamfest...July 28th

K2JB - Dean, 2007 WCARS Hamfest Chair, reported at the May club meeting that some changes were under consideration for this year. Direct contact via telephone and e-mail is the most productive method for encouraging hamfest attendance and also reduces costs. Volunteers will be needed to make numerous telephone contacts in early July. This year's rent of the Haywood County fairground facility may include only the main building and pole barn. The remaining buildings haven't been attractive to vendors, exhibitors, tailgaters, nor visitors in the past, and full use was not needed anyway. Partial facility rent at Haywood County would reduce overhead for the day considerably. Concession stand operations will be provided "in-house" this year as was done in 2006. Last year's concession service was exceptional, as well as profitable for the club. This year, N4ST - Elwood will coordinate concession stand operation on hamfest day.

KF4TVD - Steve

Field Day (FD) Activities

June 23rd and 24th should be a weekend for all of us to pack in a freight train full of Amateur Radio enjoyment. The FD focus as usual is on setting up temporary stations operating on alternate power sources (generator, battery, solar, etc.) Mobile units and stay-at-home participation is certainly welcome.

The goal for amateur operators is to demonstrate that we can communicate with one another, no matter what. Modern communication modes (phone, cell phone, e-mail, etc.) have their place and normal use, but catastrophic events throughout the world nearly always disrupt normal communications. Here's where the amateur operator becomes invaluable. Each operator should be capable of operating under primitive conditions absent any infrastructure. FD operations are conducted to test our equipment and execution of emergency planning to ensure continuous communication capability.

This year's ARRL theme is "Bitten by the Bug!" That theme, of course, is enthusiasm. Everyone is encouraged to attend all or at least some of WCARS FD operations. The location for this year's

event is a closely held secret that only a few are sure of.

The WCARS website will be updated at 0800, June 23rd, with the location of the planned activities. KE4VXC - Chet, 2007 FD Chair, plans to announce the location at 0800 on the Spivey Mtn. Repeater-146.910. Chet has informed many of us though that the site is on the left side of the road if approaching from one direction, and on the right side if approaching from the opposite direction.

Coordinated activities for the FD site include:

80m operations	KG4OPM - Marc
40m PSK	K2JB - Dean
20m Digital	KE4VMB - Ken
15m Phone	KN4ST - Elwood
10m CW	AF4SQ - Riley

GOTA HF of choice
W4IYS - Scott

VE testing is scheduled for June 23rd, at 1600 hours on site. A local scout troop may be present to experience the occasion and interested in providing assistance in erecting antennas and in other manners be most helpful. Food service is scheduled for around 1730-1800. For anyone interested in really making this an event, RV sites should also be available.

Anyone interested in participating in FD as a contest must first know the rules. The ARRL official rules are available at www.arrl.org/contests/rules/2007/fd.html. Copies will be available at the FD site. Section information can be found at www.arrl.org/secinfo.html. This year, get "Bitten by the Bug!"
KF4TVD - Steve

NC General Assembly Bill S1340 Contact your Senate representative... Solicit their support for S1340. S1340 (similar to FCC PRB-1) would establish local regulation of amateur radio installations pursuant to NC statutes. The bill was passed in the NC House on May 8, 2007, and referred to the NC Senate committee on Commerce, Small Business and Entrepreneurship.

States that have enacted PRB-1 equivalent legislation:

Alaska, California, Florida, Idaho, Indiana, Louisiana, Maine, Massachusetts, Mississippi, Missouri, Nevada, New Hampshire, New Mexico, Oregon, Tennessee, Texas, Utah, Vermont, Virginia, Washington, West Virginia, Wisconsin and Wyoming .

PRB-1, published on September 19, 1985, requires Local governments to reasonably accommodate Amateur Radio installations, and is codified in the Code of Federal Regulations Chapter 47 (Part 97.15(b) Amateur Radio.) Consistent local government adherence to PRB-1 may not be present in all applicable situations that affect amateur installations.

PRB-1 does not specify a minimum height that provides for local government regulation, but they must be "reasonable" in their accommodations. Some states have adopted state statutes that codify PRB-1. Four states (Alaska, Wyoming, Virginia and Oregon) specify heights below which local governments in those states may not regulate. This actually goes further than Amateurs in other states who are trying to convince their legislators to sponsor similar legislation. Note that NC S1340, if enacted, would specify a minimum 90 feet tall installation before local restriction can even be considered.

The pertinent text of S1340 is as follows:

SECTION 1. Article 19 (Cities)

"§ 160A-383.3. Reasonable accommodation of amateur radio antennas.

A city ordinance based on health, safety, or aesthetic considerations that regulates the placement, screening, or height of the antennas or support structures of Amateur Radio operators must reasonably accommodate Amateur Radio communications and must represent the minimum practicable regulation necessary to accomplish the purpose of the city. A city may not restrict antennas or antenna support structures of Amateur Radio operators to heights of 90 feet or lower unless the restriction is necessary to achieve a clearly defined health, safety, or aesthetic objective of the city."

SECTION 2. Article 18 (Counties)

"§ 153A-341.2. Reasonable accommodation of amateur radio antennas.

A county ordinance based on health, safety, or aesthetic considerations that regulates the placement, screening, or height of the antennas or support structures of Amateur Radio operators must reasonably accommodate Amateur Radio communications and must represent the minimum practicable regulation necessary to accomplish the purpose of the county. A county may not restrict antennas or antenna support structures of Amateur Radio operators to heights of 90 feet or lower unless the restriction is necessary to achieve a clearly defined health, safety, or aesthetic objective of the county."

Amateurs should encourage their representatives to vote for this bill, in order to gain important protections for "ham" stations. Disagreements with zoning authorities on permissible installations may then be addressed at the local level, governed by state statute.
